

OCulink Cable Assembly

OVERVIEW

Luxshare-TECH Ocuhlink focuses on the internal and external interconnecton based on PCIe protocol. It is a Small Form Factor connector and cable product family. Luxshare-TECH Ocuhlink is compliant to SAS and PCIe protocol. And as a high speed product, Ocuhlink could support PCIe up to 16Gbps, and meet SAS4.0 specification.

Luxshare-TECH Ocuhlink has passive straight and right angle cable plug type, and as for latch type, the passive latch and the active latch are both available.

Luxshare-TECH Ocuhlink is widely adopted in computing and storage device, mobile device, plugable module and low profile add in card application etc.
